Premium credits: update for June

On [May 14](#), we let you know that we were extending the premium credit for your non-refund Clients for the month of May. We're happy to confirm that we will be applying another credit for the month of June.

As provinces have begun the re-opening process, we're seeing a claims increase week-over-week for all practitioners. For this reason, the June premium credit will be lower than May's to reflect this higher claims volume. The credit you will see for the month of June will be 25% of the Dental premium and 5% of the Extended Health Care premium.

The credit for the month of June will be applied on the August invoice. Our [FAQ](#) has more details on how they're calculated and applied.

As always, we hope these premium credits provide your non-refund Clients with some relief during this time.
