Dental premium credit extended to June 30

On April 20, we announced a 70% dental premium credit per month for April and May for non-refund clients. We are writing to let you know that we're extending that credit until June 30, 2020.

Although dental clinics are reopening across the country, we expect the volume of claims will remain lower than normal. We also know that the overall financial impact of the pandemic is still a concern for many of your clients. Therefore, we're extending the credit for one more month to help them through this challenging time.

The billing will work the same way it did for April and May. Non-refund clients will receive a 70% dental premium credit for the month of June:

- If a client receives a monthly bill from us, we will automatically apply the June credit to their July bill. They won't have to do anything.
- If a client produces their own monthly bills, we're asking that they submit the reduced amounts on their billing statements, applying the June credit to their July statement.

We're here for you

We'll be posting a communication similar to this one on the plan administrators' secure site to let them know about the dental credit.

As always, your Desjardins Insurance Account Executive is there to answer any questions or concerns you may have. Please don't hesitate to contact them.
